

OPNET Technologies, Inc.

OPNETWORK

2010

**the
Top 10**
reasons
to attend OPNETWORK

OPNETWORK is OPNET's annual industry conference, focusing on advancing the state of application and network performance management.

OPNETWORK is the largest event of its kind, attracting thought leaders from industry, government, and academic communities from all over the world, to advance best practices for:

- Application Performance Management
- Network Engineering, Operations, and Planning
- Network R&D

OPNETWORK 2010 will be held in Washington D.C. from Monday, August 30–Thursday, September 2, 2010 at The Ronald Reagan Building. If you plan to attend, please RSVP right away by visiting the [OPNETWORK website](#).

OPNETWORK is free for OPNET's maintained customers and includes course materials, sessions, special presentations, nightly entertainment, all meals, and access to online proceedings.

Here is what previous attendees have had to say about OPNETWORK:

"Excellent educational training at OPNETWORK! OPNET treats its clients with much respect and enjoyment. OPNETWORK was a first class event."

-Enterprise IT

"I have attended OPNETWORK in the past, and I am always impressed with how well organized the event is. The instructors are well-prepared and the material is very effective."

-Service Provider

"Excellent sessions by knowledgeable staff! I liked the direct access to those in the know who can help with technical questions + issues. Your staff at OPNET is fantastic!"

-Government/Defense

"The number and variety of sessions available is incredible. I was able to fill my 5 days with a variety of classes that met my needs and reinforced what I had already learned."

-Enterprise IT

"The most impressive thing is the hands on approach, which makes it by far one of the best conferences I have ever been to."

-Government/Civilian

- Lots and lots of very high quality hands-on training – all in one week in a single venue.
- Learn about IT management best practices from your peers and from industry experts.
- A great way to quickly and efficiently obtain a detailed understanding of new products and capabilities, to better prioritize investment of time, money, and resources.
- Learn about OPNET products from the users – your peers – to accelerate your own solution assessment, implementation, and learning curve.
- The opportunity to meet directly with OPNET management and product development to communicate your requirements, and have direct input to OPNET's road map plans.
- It's a tremendous value! The program is free, as are all meals, materials, and entertainment.
- Network with peers from many different industries and organizations and with whom you have a lot in common professionally – establish acquaintances that you can leverage in the future.
- It is a proven investment! Year after year, in hundreds of feedback surveys completed at the conference, the majority of respondents give the event the highest possible rating – excellent!
- The location and venue are great, in fabulous Washington, D.C. – everything is conveniently located, and OPNET goes to extremes to be sure the experience is productive and beneficial.
- Provides an opportunity for you to showcase your organization's IT management accomplishments, through case studies and panel sessions.
